SLIDE DRYER(HOT PLATE)

DS-BH-II

The Slide Dryer (Hot Plate) is designed for rapid and uniform drying of microscope slides after staining or washing procedures. Its controlled heating surface ensures consistent temperature distribution, helping laboratories achieve efficient and reliable slide preparation for histopathology, cytology, and clinical applications.

Product Features

1. High-Definition digital display, real-time display of temperature.
2. Highly sensitive temperature control integrated unit, high precision and reliable performance.
3. With over-temperature alarm function
4. Using new heating materials, heating fast, uniform heating, low thermal inertia, energy saving and reliable.
5. With memory function. The set temperature is automatically retained. Louver table, 65° inclination Angle, large capacity. (Only for BH-II)

specification

MODEL	DS-BH-II
Temp. Range	RT~99°C
Supply air velocity	±1°C
Environmental Temp. Range	0~40°C
Over-temp. Alarm Range	1~5°C
Drying Area	345*260mm
Number of Slides	65
Display	LED
Power Supply	AC220V±10%, 50/60Hz(Standard); AC110V±10%, 60Hz(Optional)
Consumption	200W
External Size(W*D*H)	345*340*130mm
Package Size(W*D*H)	410*410*200mm
Net Weight	5kg
Gross Weight	7.5kg
